DATASHEET

HAND MEDIC TUBE

HAND MEDIC

GOJO HAND MEDIC conditions, protects and restores the natural barrier skin needs to stay healthy. Today's working environments can damage the skin's natural, protective barrier to the extent that the skin can no longer restore it's original, healthy condition. GOJO HAND MEDIC Antiseptic Skin Treatment quickly improves the condition of rough, dry, damaged skin to help restore a healthy appearance. It can also help protect and maintain the natural barriers the skin needs to stay healthy and clean up faster. It's the low maintenance solution that is both effective and easy to use.
